1. In your Brilliant Directories website's admin panel, navigate to **Toolbox > Widget Manager**.
2. Create a new widget by clicking the **New Widget** button.

3. Name your widget **Join Landing Page**.

The screenshot shows the 'Add Widget' form. The 'Widget Name' field is highlighted with a red rectangular box and contains the text 'Join Landing Page'. The 'Widget Type' dropdown menu is set to 'Widget'. A 'Save Changes' button is visible in the top right corner.

4. Copy and paste the following code into the **HTML** text area:

```
<!-- PAGE BANNER -->
<div class="content-container">
  <div class="alert nomargin bg-primary">
    <div class="clearfix clearfix-lg"></div>
    <div class="container">
      <div class="row">
        <div class="pagehead nomargin">
          <h1>
            Join Our Premier Community
          </h1>
          <h2 class="nomargin">
            Connect With More Customers Today
          </h2>
        </div>
      </div>
    </div>
  </div>
</div>
<!-- PAGE BODY CONTENT -->
<div class="content-container tpad" style="background: #f7f7f7;color:#404042;">
  <div class="container">
    <div class="row">
      <div class="col-md-6 col-md-push-5">
        <div class="clearfix clearfix-lg"></div>
        <h2 class="h1 bpad">
          What Are The Benefits of Joining?
        </h2>
        <p class="h4 line-height-xl tmargin bpad inline-block">

Save Changes

5. Within the code you pasted into the *HTML* section of the widget, feel free to replace any of the **plain text only** such as: Join Our Premier Community
6. Click the small **Copy** button on the left side of your screen to copy the widget's shortcode.

The screenshot shows the 'Add Widget' interface. At the top right is a green 'Save Changes' button. Below it, the 'Widget Name' field contains 'Join Landing Page'. The 'Widget Type' dropdown is set to 'Widget'. There are three tabs: 'HTML', 'CSS', and 'Javascript', with 'HTML' selected. A note states: 'The HTML box supports: HTML, CSS, Javascript and PHP. NOTE: you can not create php functions in the widget editor'. The HTML code editor contains the following code:

```
1 <!-- PAGE BANNER -->
2 <div class="content-container">
3   <div class="alert nomargin bg-primary">
4     <div class="clearfix clearfix-lg"></div>
5     <div class="container">
6       <div class="row">
7         <div class="pagehead nomargin">
8           <h1>
9             Join Our Premier Community
10          </h1>
11        </div>
12        <h2 class="nomargin">
13          Connect With More Customers Today
14        </h2>
15      </div>
16    </div>
17  </div>
18 </div>
19 </div>
20 <div class="clearfix clearfix-lg"></div>
21 </div>
22 </div>
23
24 <!-- PAGE BODY CONTENT -->
25 <div class="content-container tpad" style="background: #f7f7f7;color:#404042;">
26   <div class="container">
27     <div class="row">
28       <div class="col-md-6 col-md-push-5">
29         <div class="clearfix clearfix-lg"></div>
```

Below the code editor, there are two input fields. The first is labeled '[widget]=Join Landing Page]' and has a green 'Copy' button next to it. The second is labeled '<?php echo widget("Join Landing Page","", \$w[website_id], \$w);?' and also has a green 'Copy' button. Below these fields are two lines of explanatory text: 'Copy shortcode to render this widget anywhere on your website' and 'Copy PHP version of shortcode to render this widget anywhere on your website'. At the bottom of the interface is a large green 'Save Changes' button.

7. Click the **Save Changes** button to save this new widget.

This is a close-up screenshot of the bottom portion of the 'Add Widget' interface. It shows the two input fields for the widget name and PHP shortcode, each with a green 'Copy' button. Below these fields are the two lines of explanatory text. At the bottom, a large green 'Save Changes' button is highlighted with a red rectangular border.

8. In your Brilliant Directories website's admin panel, navigate to **Content > Create Web Page**.

9. Assign a URL to this new web page, such as: join-the-community

The screenshot shows the 'Add New Web Page' interface. At the top left, there is a pencil icon and the text 'Add New Web Page'. At the top right, there is a blue button labeled 'New Web Page +'. Below the header, there are two text input fields: 'Enter Page Title Here (H1)' and 'Enter Sub Title Here (H2)'. Below these is a 'Permalink URL:' field with a red border around it, containing the text 'http://interiordesignersdemo.directoryup.com/join-the-community'. To the left of this field is a blue button labeled 'Upload Image +'. Below the URL field is a rich text editor with a toolbar containing icons for undo, redo, bold, italic, underline, text color, background color, bulleted list, numbered list, link, unlink, and a minus sign. The main content area of the editor contains the text '[widget=Join Landing Page]'. On the right side of the form, there is a green 'Save Web Page' button at the top. Below it are several settings sections: 'Page Type' (dropdown menu set to 'content'), 'Internal Nickname' (text input), 'Show Sidebar?' (radio buttons for 'No Sidebar (full width)' and 'Full-Width Page'), 'Sidebar Position' (dropdown menu set to 'Left'), 'Breadcrumbs' (text input), and 'Display Options' (checkboxes for 'Hide Header', 'Hide Footer', 'Hide Header Links', 'NoIndex, NoFollow', 'Hide Main Menu', 'Members-Only Page', and 'Full-Width Page' which is checked). A note at the bottom right states '* Page Type must be set to "CONTENT"'. The 'Full-Width Page' checkbox is checked.

10. In the large content area, paste the widget's shortcode that you copied in Step 6.

This screenshot is identical to the one above, showing the 'Add New Web Page' form. The main content area of the rich text editor now has a red border around the text '[widget=Join Landing Page]', indicating it has been pasted into the editor. All other elements, including the URL field, settings, and buttons, remain the same as in the previous screenshot.

11. In the page's Display Options, check the box next to **Full-Width Page**.

The screenshot shows the 'Add New Web Page' interface. On the left, there are input fields for 'Enter Page Title Here (H1)', 'Enter Sub Title Here (H2)', and a 'Permalink URL' field containing 'http://interiordesignersdemo.directoryup.com/join-the-community'. Below these is an 'Upload Image +' button and a rich text editor with a toolbar and a widget '[widget=Join Landing Page]'. On the right, the 'Save Web Page' button is green. Under 'Page Type', 'content' is selected. Under 'Internal Nickname', there is an empty text box. Under 'Show Sidebar?', 'No Sidebar (full width)' is selected, and under 'Sidebar Position', 'Left' is selected. A note states: 'Sidebars will ONLY display when the Page Type is set to "Content" & "Full-Width Page" is not checked below'. Under 'Breadcrumbs', there is an empty text box. Under 'Display Options', the 'Full-Width Page' checkbox is checked and highlighted with a red box. Other options include 'Hide Header', 'Hide Footer', 'Hide Header Links', 'NoIndex, NoFollow', 'Hide Main Menu', and 'Members-Only Page'. A footer note says '* Page Type must be set to "CONTENT"'. A 'New Web Page +' button is in the top right corner.

12. Click the **Save Web Page** button to save the page and set it live on your website.

This screenshot is identical to the previous one, but the 'Save Web Page' button is highlighted with a red rectangular border. The 'Full-Width Page' checkbox remains checked.

13. You can now add this page your website's main menu, link to it in your email newsletters, post the link to this page on your social media accounts, and more.
